

Addizione, sottrazione e condivisione

Conta e somma gli oggetti per trovare il totale

1.  
 $\boxed{2} + \boxed{3} = \boxed{}$

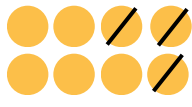

2.  
 $\boxed{6} + \boxed{4} = \boxed{}$

3.  
 $\boxed{} + \boxed{} = \boxed{}$

4.  
 $\boxed{} + \boxed{} = \boxed{}$

Usando la stessa logica, sottrai gli oggetti per trovare il numero totale di elementi rimanenti

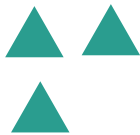

5. 
 $\boxed{4} - \boxed{2} = \boxed{}$

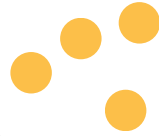

6. 
 $\boxed{8} - \boxed{3} = \boxed{}$

7. 
 $\boxed{} - \boxed{} = \boxed{}$

8. 
 $\boxed{} - \boxed{} = \boxed{}$

Confronta i due gruppi e determina la differenza

9.  
 $\boxed{} - \boxed{} = \boxed{}$

10.  
 $\boxed{} - \boxed{} = \boxed{}$

11.  
 $\boxed{} - \boxed{} = \boxed{}$

12.  
 $\boxed{} - \boxed{} = \boxed{}$
